We are very saddened to learn of the loss of Scott Walker and our hearts go out to his surviving family and friends.

Walker's work in the 1960s, both solo and with the Walker Brothers, has influenced a staggering amount of music that we cover here at brainwashed, while his more experimental work over the last few decades has solidified his role as one of the most important contemporary avant-garde composers.

For an extensive eulogy including a timeline of his career, [please read what his label, 4AD has posted](#)
