Over at Thighpaulsandra's [official website](#) , two new freebies have been added to the [Downlo ads](#) section.

One of the offerings is two tracks off the *Michel Publicity Window* EP ("Fouled" and "Paralysed"), and the other is the debut (we think) of a new retro-80s hair metal throwback group called Daterape, of which Thighpaulsandra is a member (we think). Six tracks are offered, and judging by some of the song titles ("Castro Boys" and "Piss Station"), I think its fair to say that Daterape are aiming to put the "cock" back in "cock rock." Don't say we didn't warn you.
